Healthcare Series is fully made in the USA with dry technology, so the carbon footprint is minimal. As with any C&A series, there is no waste and the environment is always taken into consideration. Free of formaldehyde and as opposed to many imports, the material has not been treated with dangerous chemicals.

All pieces are finished on all sides. Drawers are made with melamine and dove tail construction. Handles provide easy grip.

All pieces provide various design options for comfort and needs of the resident. Finish options provide for a warm and nurturing environment. Vinyl tops in various finish options are also available.
